Noon • At the Farm • Lenoir City, Tennessee

MontVue Farm

P.O. Box 488 • 1423 Huntsville Hollow Road • Lenoir City, TN 37771

I have lived and breathed purebred livestock all of my life. I grew up in the Polled Hereford breed with my family; my Dad was a dedicated breeder. Every day I thought about it, dreamed it and planned it; breeding cattle is something that gets into your blood. It has been a very difficult to make the decision to disperse the MontVue Farm herd. However, one must accept change; my sweet little mother was so wise in reminding us that “life is just a bunch of adjustments.” My only regret is that I am not 20 years younger to continue building on our achievements to this point. However, it is time for me to lower my commitment and a full and complete dispersion seems to be the best way to achieve this.

I have been deeply involved in the purebred industry for more than 60 years and I can’t express how much I have enjoyed the trip. This is primarily a people business and we feel strongly attached to the good friends and contacts we have made and will continue these relationships. My role models and heroes are the people who dedicate their lives and extraordinary talents to the livestock industry. We stand upon the shoulders of those who have preceded us, and my hope is that MontVue Farm has pushed the Red Angus breed a little further and you will benefit from our efforts.

Many of the cattle we have purchased for the foundation of our herd have come from the “heartland of Red Angus”, Leachman, Beckton, Buffalo Creek, Feddes, Ludvigson, Midland, Hammel, LCOC, Bieber, TNT, Schuler, Tongue River, Shick, Larson, Croissant, Sonstegard, and others. Just as important are the great animals we have added from breeders in our area: Whitley, Bull Hill, Hust, Shady Bottom, McLean, Cedar Hill, Little Creek, Atkinson, Red Hill, Andras, Long Bow, Copeley, Dause, Neo Sho, Rocky Hill, Tennessee Valley, and others.

We chose Red Angus over 16 years ago because, of all the breeds we studied, had the most progressive program dedicated to do what I was taught back in Animal Science 101 many years ago; producing superior genetics to serve and improve the commercial beef industry. We have not been disappointed and are just as excited now about Red Angus as the day we began.

Our mission has been to produce superior seedstock for the commercial cattleman in the Eastern and Southeastern regions, with its special environment and challenges, and we feel that we have made a great deal of progress. If you can, take time to view the bulls we have produced and are retaining to fulfill our commitment to the Beef Builder Bull Sale on February 18, 2011. Anyone who has bred cattle knows that it takes a great deal of time and a steadfast commitment to put together a herd that can produce what is the ultimate product of a purebred operation, top commercial bulls. You can “stand on our shoulders” with these cattle that have been rigorously culled for performance and fertility in our hot, humid environment where Fescue grass is dominant, and be a huge step up on achieving your own special goals.

We look forward to continuing our interest in the Red Angus breed and, most of all, the people, our friends, that continue the pursuit of perfection.

Our love and best wishes, and special appreciation to our family and employees; thank you for all you have done for us.

John and Gale Montgomery

Welcome to the Mont Vue Complete Dispersal Auction

Dispersal Auctions always come with mixed emotions for me. I always hate to see anyone exit the Red Angus business and in this case, I really hate to see John and Gale sell this tremendous herd that have been an integral part of their lives for the past 16 years. But as John says, it is time for him to move on and pursue other life interests. Because of his decision, every animal, every embryo, every straw of semen and even the semen tank sells November 11th at the farm, Lenoir City, Tennessee.

I met John Montgomery several years ago when he began investing in Red Angus. Over this time period, I have come to appreciate his enthusiasm for the breed and even more his friendship and approach to life. John is always positive and as straight forward and honest a person as you will find . . . he is a real country gentleman, and I am very grateful to call him a friend and fellow cattleman.

The Mont Vue offering is very unique and an unbelievable opportunity, at this point in time, to invest in the greatest breed of cattle ever known to the beef industry – Red Angus! As I see it, the strength of the Mont Vue cattle is the fact that they are adapted to fescue grass, their sound feet with overall excellent hoof structure and sound productive udders in the females. John has been in the purebred cow business for over 60 years and invested in Red Angus for over 16 years. With several prominent people, breeders and staff members at RAAA commenting that the MontVue program is the best herd east of the Mississippi.

The Red Angus breed is undeniably creating more demand and interest than in any time in its history. Commercial Red Angus females are the hottest thing selling across the country and bull demand is steadily climbing as cattlemen and women experience the difference between owning other cattle versus Red Angus cattle. Red Angus are easy fleshing, requiring less feed and dollar inputs than nearly any other beef breed. Red Angus are highly maternal with great milk production and “motherability.” Red Angus are the right size to hit packer targets for yield and are superior to nearly every other beef breed for grade (superior marbling traits). Red Angus are quiet disposition cattle that are easy to work with in the pasture and in the feedlot. The bottom line is when you analyze the big picture in the beef industry, Red Angus fit better than any other breed on the scene today. The Mont Vue herd is no exception, possessing all of these great traits and is a unique gene pool that John Montgomery has assembled with a great deal of study, commitment and fortitude. Please don't overlook this tremendous opportunity to invest in the greatest beef breed of all time...Red Angus.

I will be coming to the Mont Vue Dispersal from Reno, Nevada and the Bet On Red Auction. My plans are to be available for cattle inspection and appraisal beginning Tuesday, November 9th through sale time. If I can be of any assistance in your selection of cattle, please don't hesitate to give me a call.

I look forward to seeing you in Lenoir City, Tennessee.

Best Regards,

Kyle Gilchrist

(641) 919-1077

Directions to the farm:

From Nashville: Come east on I-40 to exit 364, go right/south to Lenoir City, TN. on US 321 for about 6 miles to hwy US 11, turn right at the stop light and go through Lenoir City about 2.3 miles to the Ruby Falls sign on the left. Turn left onto Huntsville Hollow Rd and go about 150 yards to farm entrance. Watch crossing the Rail Road tracks.

From Knoxville: Go toward Chattanooga on I-75 to exit 76, Sugar Limb Rd. Turn south, left and go about 2 miles to "T" at US hwy 11. Turn left toward Lenoir City and go about 1.5 miles and turn right onto Huntsville Hollow Rd past a white fence on right.

From Chattanooga: Come up I-75 to exit 76 and follow directions above.

From the Airport: Go south on US 129 to intersect US 321 and go right, easterly to Lenoir City and turn left at US hwy 11 and follow directions above.

We have been so very fortunate to use one of the best Beckton Julian GG B571 sons. There are few proven bulls in the RAAA data base with a better EPD set. He has sired excellent heifers as well as bulls. He has ratioed 102 on his yearling, %IMF as well as REA performance. He has had extensive use by several top breeders, including his breeder, Neil Hueftle, Frank Wedel, Steve and Will Andras, Ludvigson, and many others. You will find many daughters in this sale and they have good udders and feet as well as being very beautiful animals. His son, MontVue N155 Jewel U290, now in service at Lackey Farm, MO, is one of the best of his progeny and has several calves in the sale. We lost Jewel last year due to an injury. We have several sons for the Beef Maker Bull Sale on Feb 18, 2011.

Over 350 units of semen sell! Owned with Leachman Cattle Barons, Hueftle Red Angus, NE, Heaven's Corner Red Angus, TN

What can you say about a bull that is breeding cows well into his 10th year! "Sound?". Kindle definitely adds longevity and sound feet and legs and great udders, not to mention breed leading marbling. He is a Canadian bred outcross bull, before the breed started looking there for "outcross". He had the highest IMF scan ever from a large test station in Canada. He was used extensively by Leachman Cattle Co. and Leachman Cattle of Colorado. We love his good uddered, sound daughters and have several good bulls in the Beef Maker Bull Sale group. He has been used extensively on virgin heifers and is definitely a calving ease sire. A daughter topped the Leachman of Colorado 2008 sale at \$15,000 to TNT Simmental, ND. There are two of her Brown Vacation daughters in this sale, Lots 78 and 120. We own this sire with Garry Graham, GSquared Farms, TN.

Over 350 units of semen sell!

Ed Dempsey and I stopped by the Genex Hawkeye West facility two years ago and saw C A Future Direction 5321 for the first time. He was over 10 years of age and was sound as a 3 y/o. When we went to Chuck Feddes Ranch sale later we found 3 young herdsire prospects by his son, 5L Direct Fire 16451-6443 out of a great Norseman King 2291 daughter. We were able to purchase the one we liked the best and he has met all of our expectations. We love his bulls and daughters; they are, like him, moderate framed, deep, thick and heavily muscled. We have never used a bull that has been more consistent. Fortunately both he and his sire tested free of all known genetic defects. We think this bull is what our industry is striving toward. Check his female progeny in the 2009 and 2010 fall calving group as well as the spring calving bred heifers.

The top selling heifer in 2009 Andras Stock Farm sale was sired by "Chuck" and later she nearly won a very strong class for Will at the National Show at the NAILE. Chuck Feddes had a top selling flush in his 2010 bull sale and we noted that he named them "Monty".

Unfortunately, 7130 developed a stifle injury during his summer pasture work and had to be sacrificed. He was gentle, extremely sound, good testicle development; it is heart breaking to lose a bull like this. We have a good bank of semen on this young sire.

Owned with Chuck Feddes and Andras Stock Farm. Take a look at what we think is his exciting best son, MontVue Red Future W439, selling as Reference Sire P.

Over 700 units of semen sell.

We purchased this MPPA 110.3 dam, Leachman Dina B2404, in the Leachman Cattle Company dispersion. She had been used extensively there as well as by Leachman Cattle of Colorado as a donor cow. She is a flushmate to the well known Whitley Red Angus sire, LMAN Milky Way 2434B. This son of LCC Major League A502M was the spitting image of his sire. Take a look at his many female progeny in this sale. They are beautiful, with great udders, disposition, and conformation. We have several sons in the Beef Maker Sale to observe. We lost him last summer due to an infection. We have used an excellent son, MontVue R007 Major D U332, in the pasture, now owned by Andrew Turner, TN.

Over 700 units of semen sell.

Ed Dempsey, son in law and cattle consultant, and I went to Beckton Red Angus in 2003 determined to find and buy the best bull they had. We thought that Lancer M375 was the best of an outstanding flush of 5 bulls and a heifer, purchased by Red Hill Farm, TN. The dam, Beckton Lana H329 HD has produced a herdsire for the Forbes, Beckton Cruiser K118 (736109), and a full sister was retained in their herd coming to the top with another herd bull, Beckton Nebula NR573 (1042311). This has been a very productive family. M375 has left us with many good uddered daughters as well as the sons we have produced and used. He is high on most of the maternal traits, top 5% CED and BW. You will find several calves by a good son, MontVue M375 Lancer T155 (1215708).

Enterprise is one of the top sires at Ludvigson's Stock Farm. Unfortunately they lost him early and have limited semen. His dam, a F442 daughter, is one of the best cows in their herd with a near perfect udder and foot structure. This young sire has the same structure. You will love the attractive females as well as bulls from this moderate, very structurally correct young sire. We purchased him with our good friend, Dennis Hinch, Shady Bottom Farm, TN, and he sells in his entirety. We have used him extensively on virgin heifers and we feel very confident with his calving ease. This herd bull has been Trich tested for entrance to all states.

Selling full possession and 50% semen interest.
 Ludvigson Stock Farm owns 50% interest.

We found this extremely interesting young sire raised by Scott Knab at the 2009 Midland Bull Test, MT. He has a remarkable EPD set, top 2% CED, 2% BW, 26% WW, 31% YW, off the chart 1%+(0.81) MAR, 27% REA. Sired by the high selling ABS Global sire, Brown Commitment S7206. I couldn't resist his dam side from the Abigail cow family at Brown Family Genetics and sired by a grandson of our own Beckton Belga B061 (dam of Lots 1, 35, 36, 37, 38, 39), Beckton Heritage N013. We like his moderate size, good testicular development, thickness and super structural correctness. He is a +++ calving ease sire with performance. You will find a lot of very good calves in the sale from this sire. We predict that he will continue to prove to be an outstanding "moderating" sire. This herd bull has been Trich tested for entrance to all states.

Selling full interest and possession.

We purchased the pick of Schuler's heifer crop in 2007 and saw a remarkable young yearling bull prospect that later topped their sale. We were privileged to join with some outstanding friends and breeders, RA Brown Ranch, Mushrush Red Angus, and Frank Wedel, as well as ABS Genetics to purchase him. We love his progeny and you will find several in this dispersion in the spring as well as fall calving groups. There are several developed bulls in the Beef Maker Sale group. Make a special note of the Envy bull Lot 10, out of MontVue N155 Chevy R048, Lot 9. We have used him on all of our first calvers and he is proving to be a calving ease sire.

Selling 12.5% semen interest, our semen inventory of 150 units, no possession.

Garry Graham leased us "Advance" to clean up our spring calving group when Feddes Direct Nors 7130 was injured in the pasture this summer. This Rafter H Ranch bred sire is a popular Genex Cooperative sire with extreme growth and length on a moderate frame. Note his outstanding EPDs and performance record. Accelerated Genetics owns a powerful AI son, RHRA EZ 537 10T (1174461).

We feel very fortunate and proud to be associated with the owners of this extremely popular Genex sire bred by Tony and Karen Messmer. He has been one of the most consistent sires we have used. His progeny over the country have been well accepted by commercial cattlemen. We have used two good sons in our herd, MontVue S008 Packer U354 (1284804) and MontVue S008 Packer 8700U (1235444), now owned by James Hull, TN, and out of Lot 26, LCC Dina LB 195. You will find many outstanding animals in this dispersion by this sire but take special note of Lot 44 and the flush from LCC Tilly MB012, Lots 21, 22, and 25. Take a look at the first calf heifer's udders and foot structure as well as the several bulls in the Beef Maker Bull Sale group sired by Packer.

A great young Jewel Maker son. We used him in our herd and have several calves in the sale sired by him. The birth weights look good and have had no assists. He is thick, extra long and correct, with good testicular development. A remarkable, should I say phenomenal, EPD set and even more impressive performance record. This son of Montvue Carrie P006, Lot 11, is probably the best Jewel Maker son we have produced. Now owned by Lackey Farms, MO. We look forward to watching the proof on this very promising young sire.

We love Beckton Nebula M045 and you will find several good females sired by him in the dispersion. This young sire has been a standout from the beginning; thick, deep and correct with good testicular development, scanning a 15 sq in REA (ratio 110). His dam, Lot 87, is a favorite daughter of Glacier Chateau 744 out of one of the best cows we have owned, Doris 413. We have intended to use him as a calving ease sire and he was loaned to The Dempsey Farm this summer. Now owned by Alan Sefton, TN.

Red Future looks very much like his sire, deep, thick, large testicles, good footed, and gentle as a puppy. His EPDs and performance are outstanding. I don't believe many have seen bulls with a record like this. We used him to clean up our spring bred heifers and have confidence that his calves will be truly our "red future". This is a very special young herd bull prospect from a special sire and dam. All of our sale herd bulls have been trich tested for shipment to all states. **Selling full possession and semen inventory (over 700 units).**

This is one of the best Cherokee Canyon daughters we have ever been privileged to breed. Moderate size, excellent feet and udder and a strong candidate for a flush program. Absolutely one of the most productive females in the herd with two fine daughters, S032 by Lancer M375, and a Jewel Maker daughter T042. We used a Jewel Maker son U290 (see reference Lot K) now owned by Lackey Farms, MO, with an outstanding performance record. Her EPD set, performance, and record are among the best, with a 107 MPPA, 114 MAR ratio, 115 REA ratio. Her TNT Bank Statement T272, Lot 12, is fantastic. He is one of the best herd bull prospects in the sale and will get a lot of attention. Cows like this only come up in dispersions.

What can you say about one of the best, if not the best, young herd bull prospects we have ever had in the 60+ years of the purebred cattle business. He is not only handsome, correct, and muscular, but has one of the best birth to yearling spreads going from a 74 birth ratio to a 116 weaning ratio. We think you will find this phenomenal young purebred herdsire prospect one of the best you will find. Out of a dam with a flawless record, he could be a top sire.

You will be astonished by this young sire's calves. Some of the extreme tops are sired by this Mission Statement son out of one of the best cows we have seen, NSFM Miss Dynamics M14, sired by Buf Crk Dynamics 3820. Take a look at one of the most exciting young bulls you will likely see this year, Lot 12, and one of the best female prospects, Lot 2. Without a doubt, if we were not dispersing, these animals would stay in our herd.

Selling 5% semen interest, no possession.

I tried lining up Beckton Julian B571 by breeding half siblings. This female concentrates one of the greatest bulls in the RA breed, Beckton Julian B571. This good uddered daughter of LCC Tilly MB012 has done a good job with a heifer calf by MontVue M375 Lancer T155, the best son of Beckton Lancer M375. Has a 10 CEM EPD in the top 1% of the breed. If you need to increase maternal, look at Lots 23 and 64.

Likely the best WCC King Kong L313 daughter we ever had. Out of the LCC Tilly MB012 cow, Lot 20. Her EPDs and performance are excellent. We planned on flushing her this fall, so is open. Lackey Farms, MO, owns a daughter by Jewel Maker.

We feel very fortunate and proud to be associated with the owners of this extremely popular Genex sire bred by Tony and Karen Messmer. He has been one of the most consistent sires we have used. His progeny over the country have been well accepted by commercial cattlemen.

We have used two good sons in our herd, MontVue S008 Packer U354 (1284804) and MontVue S008 Packer 8700U (1235444), now owned by James Hull, TN, and out of Lot 26, LCC Dina LB 195. You will find many outstanding animals in this dispersion by this sire, but take special note of Lot 44 and the flush from LCC Tilly MB012, Lots 21, 22, and 25. Take a look at the first calf heifer's udders and foot structure as well as the several bulls in the Beef Maker Bull Sale group sired by Packer. **Selling 5% semen interest, 90 units of semen, no possession.**

One of our favorite cows. This MPPA 104 dam was purchased from Leachman of Colorado where she was flushed extensively and had, in our opinion, the top dam's progeny in that sale, which included Shady Bottom's LCOC Major League A021P, one of the best Major League sons in service. In addition, she is a daughter of the well known LCC Dina B2404, the full sister litter mate to Whitley Red Angus's Lman Milky Way 2434B. We used her son, MontVue S008 Packer 8700U, sired by Messmer Packer S008 as a herdsire. Check her outstanding spring calving bred heifer, Lot 27. **She has a very good Major D R007 heifer calf X625, Lot 26A. AI Ref. Sire R: Messmer Packer S008 5/19/10, PE Ref. Beckton Belga B061 has been our best ET donor. This is a very good footed and uddered Cherokee Canyon daughter. **Sells with a bull calf, #1373964, tattoo X658, born 8/5/10, sired by Ref. Sire H: Schuler Envy 7342T.** Calf has suffered an injury to one eye.

Basin Hobo 649M...Sire of Lots 36-38

Lots 36-38

Basin Hobo 649M, a black-red carrier sire owned by Andras Stock Farm, is one of the most athletic and phenotypically correct bulls we have seen. We liked him as a source of high maternal outcross genetics. We flushed our best donor cow, Beckton Belga B061, to him with great results. Note the phenotype, feet and legs, udder conformation and femininity in these excellent females. Two are black-red carriers and two are homozygous red.

CH Split Rock L9, purchased from Dan and Alicia Stickel, WV, has been a great donor cow for MontVue. She has influenced our herd with several daughters. Huge capacity, sound udder and feet, and an 108.4 MPPA on 7 calves. Her Nebula M045 daughter, W430, Lot 46 is one of my favorite bred heifers, one to definitely check out. Her bull calf, X580, Lot 44 by Messmer Packer S008 is truly outstanding. He should garner lots of excitement. **AI Ref. Sire R: Messmer Packer S008 5/19/10, PE Ref. Unbelievable young son of Packer. As thick made young bull calf as we have seen. He was our heaviest weaner (ratio 118!), structurally correct, moderate framed, and absolutely loaded with meat and muscle. I just hope that a young herd bull prospect like this one gets a chance with a good set of RA females. He is special. Top 3% YW, top 40% MAR, top 6% REA EPDs. I just wish he would remain in a contemporary group to get more proof on his EPDs.

Fall-Calving Females... Lots 52-95

All of this group spent the summer on Fescue based pastures. They had no supplements and all slicked off and were in good condition at calving. The young females are getting some silage supplementation, but the older group continues to be only on pasture. You will find this to be a fine group of fall calving females, well adapted to their environment.

Maternal sister to Lot 42. This good uddered cow family going back to our foundation cow, Belga B061, is very productive and consistent. She has a good heifer in the fall 2009 group by Andras Hobo T7030, Lot 160. **Sells with heifer calf, #1373940, X671, born 9/1/10, by Ref. Sire K: MontVue N155 Jewel U290.**

Jim Ligon, manager of the Tennessee Tech University Farms, called me a while back and said he found that his best producing Angus female was a red gene carrier and would we like to flush her to our LCB Jewel Maker N155 bull. We got two heifers and a bull, MontVue N155 Jewel T033, used in our herd and sire of Lots 172 and 173. He was later purchased for use in the Tennessee Tech herd. Check her 2009 fall heifer calf, Lot 163, by Andras Hobo T7030, a son of Basin Hobo 649M. **Sells with bull calf, #1373944, tattoo X674, born 9/3/10, sired by Ref. Sire K: MontVue N155 Jewel U290.**

A really good OSF Grand Canyon daughter that has produced good bulls as well as females. Check her direct daughter, Lot 65. Jacquelyn Dempsey showed an excellent Direct Norse 7130 daughter that she is now the proud owner of. The Lakina cow family goes back to one of the first heifers we purchased from Leachman Cattle Company, LCHMN Lakina C1166. She is the source of many fine animals: examples are Lots 59, 67, 65, 164. I think you will find that these are all very fine animals, with excellent feet and udders. **Sells with heifer calf, #1373948, tattoo X691, born 9/17/10 by Ref. Sire C: Feddes Direct Nors 7130.**

An extremely milky older daughter of Leachman Ritz 1043 does a great job with her calves. Is selling with an embryo bull calf at side purchased from Jake Feddes by the popular sire Feddes Big Sky R9. The dam is one of the best producers in the Feddes herd. She is a direct 106.9 MPPA daughter of Feddes Blockana 4231, the foundation cow to the famous Blockana line and maternal sister to Ken Marquis', NY, Feddes Blockana 899. Very nice young bull prospect. We saw a great daughter of Blockana 880 sell as Lot 38A in the Red Angus of the Ozarks Sale, consigned by Larry Ellison's Harmony Hills Farm, MO. **Sells with embryo bull calf, #1373972, tattoo X668, born 8/31/10 . Feddes Big Sky R9 X Blockana 880.**

Forest Dunning's Tongue River Ranch, one of the really top herds in the US, donated the pick of their heifer calf crop to the Sal Forbes Fund for her induction and picture in the Saddle and Sirloin Club, NAILE. This full sister to Mushrush's fantastic herdsire, TR Julian LT142 (785183) was our pick from an absolutely fabulous set of heifers. If you are looking for a moderate framed, extremely high maternal (top 1%CED, 1%BW, 3%ME, 2%HPG) young female, you should consider this one. We flushed her last year and bred her to calve to Feddes Direct Norse Ref. Sire C: Feddes Direct Nors 7130. **She has a heifer calf, X626, Lot 96A, and was left open to flush this fall.** This is a pair that would never leave unless in a complete dispersion. She has a fabulous future.

Buf Crk Medallion N328 is one of the best sires in the Buffalo Creek herd. This outstanding first calf heifer is out of a Beckton Julian B571 daughter of the famous MRM 1431 8611 9109 cow, the dam of BufCrk Cherokee Canyon, arguably one of the most influential sires in the history of the RA breed. Here is a southern adapted, deep sided daughter with a perfect udder and one of the best TNT Bank Statement T272 bull calves in the herd, X578, Lot 113. If this guy doesn't make someone a herdsire we will be surprised and disappointed. **PE Ref. Sire I: RHRA Advance 274 86R 5/25/10 TO 7/31/10**

MontVue 7130 Garnet X600...Lot 110A

Lots 112-127

There are some "dandy" bull calves in this group. Some have definite potential for use in a purebred herd. Most all should develop into good salable commercial bulls for your customers.

Spring-Calving Cows...Lots 129-152

Most of the spring calving heifer group were in our "keeper" replacement heifer group. They were intended to be the next generation in our program and represents a leap ahead in genetic progress. We are proud of this set of females. Cows in this group have been checked safe in calf unless otherwise noted in the footnotes or from the auction block.

The dam of this Cat 2 heifer comes from the top producing red carrier cow in the Tennessee Tech University herd from a flush we obtained by LCB Jewel Maker N155. Tech purchased her full brother, MontVue N155 Jewel T033, sire of Lots 172 and 173, for use in their herd. Very interesting and valuable outcross Angus genetics here top and bottom.

This MPPA 104.6 Enterprise daughter from the Red Della D109 cow family has been an outstanding producer. Check her progeny in the sale, U251, Lot 52, a Big Sky daughter, W433, Lot 140, a Packer S008 bred heifer, and her full sister, X577, Lot 178A. Unfortunately S6098 was injured and unable to be sold.

MontVue R007 Flower X598 is from an excellent Lancer F442 daughter from a Julian B571 going back to the great Lchmn Flower C1161 cow, one of the foundation of RA Brown Ranch Red Angus herd. This is a really good looking R007, as you may have come to expect, from an outstanding maternal family.

X579 heifer. Her 105 MPPA Jack and Martha Roberts bred dam, MRM 3820 8736 9920 is a daughter of one of my favorite "cow makers", Buf Crk Dynamics 3820 by the outstanding sire, Messmer Packer S008. This heifer has all of the genetics to be a great cow, just like her mom.

Messmer Packer S008 is one of the most popular and prepotent sires in the RA breed today. The dam of this beauty with an unbeatable EPD set is MVK MA016, our favorite Chateau 744 daughter, is the dam of MontVue Nebula W325, a young bull we used as a herdsire. Her calf was lost due to pneumonia and she did a good job with her foster bull calf, X619.

Sale Terms and Conditions

TERMS: Terms of the sale are cash, check, or other terms agreed to in writing between seller, buyer, and sale manager payable immediately upon conclusion of the sale before animals will be moved. Sale Manager reserves the right to require a certified check as settlement before releasing any cattle.

PURCHASER'S RISK: All animals are the owner's risk prior to their sale and become property of the purchaser as soon as declared sold by the auctioneer.

BIDDING: Any disputes or challenges regarding bids or tie bids will be settled by the auctioneer and his decision will be final.

CERTIFICATE OF REGISTRY: A certificate of registry for each animal will be transferred to the buyer at the seller's expense.

ANNOUNCEMENTS: Any errors or changes in information contained in the catalog will be announced from the block and such announcements shall take precedence over the information contained herein.

HEALTH: All animals are eligible for interstate shipment. Interstate health papers prepared by an accredited veterinarian will be furnished on each animal sold. Arrangements for International Shipment should be made with the sale manager prior to the auction. All efforts for the exportation of cattle can be arranged through the sale manager.

BREEDING GUARANTEE: This is a Dispersal Auction. All of the animals in the sale have been checked by our veterinarian and found to be safe in calf unless stated otherwise from the auction block.

LIABILITIES: All persons who attend the sale do so at their own risk. The seller, auction facility, and sale manager assume no liability for any accidents that may occur. Neither does the seller, auction facility, or sale manager assume liability for the loss or injury to livestock due to theft, mysterious disappearance, sickness, improper handling or Act of God. It is to be clearly understood that the sale manager and its representatives act only as a medium between the buyer and the seller. They are not responsible in any way for the failure on the part of the buyer and seller to live up to their obligations or for the truth of any warranties or representation, express or implied. Neither does the sale manager assume any financial obligations to collect or enforce collection of monies between parties. Any legal action, that may in exceptional cases be taken, must be between the buyer and the seller. This catalog has been prepared by the sale Manager from pedigrees and information supplied by sources deemed reliable, however, the sale manager will in no way guarantee the pedigree, percentages of the animals selling, or data included in this catalog. Any exceptions taken are between the buyer and the seller.

CONTRACT: The above terms and conditions of sale shall constitute a contract between the buyer and seller of each animal and shall be equally binding upon both. Each sale or resale of an animal constitutes a separate transaction.

PHONE BIDS: Telephone bids will be taken by the sale manager. Kyle Gilchrist's cell number is (641) 919-1077.

Broadcasting Real-Time Auctions

Can't make the sale? Bid from home with DV Auction's "real-time" internet bidding service!

Buying online is as easy as 1, 2, 3...

1. Create an account at www.dvauction.com under the "register" tab and watch our online bidding tutorial
2. Apply for bidding approval by clicking on the "details" tab at least 24 hours prior to the auction-a DV representative will notify you once you have been approved
3. Tune in for the sale and make you purchases!

After the sale, contact the sale manager or owner to arrange transportation and payment. **High speed internet** is required for successful bidding-be sure to check the lag-time monitor in the top left corner to ensure real-time broadcasts.

Proxy Bidding-if you can't make time to watch the sale, register a proxy bid and let our system represent your bid while you're away. Look for the "proxy bid" tab on the auction listing, and fill in your maximum bids. We'll handle the rest!

Having troubles? Call Tami at (308) 870-3661 or email tami@dvauction.com
Our full-time support team can also always be reached at (402) 474-5557.
